The blessings of liberty: a concise history of the Constitution of the United States

Full text not available from this repository.

Abstract

This concise but authoritative history covers important trends and events in U.S. constitution history, encompassing key Supreme Court and lower court cases. The volume begins by discussing the English and colonial origins of American constitutionalism. Following an analysis of the American revolution's meaning for constitutional history, the text traces the Constitution's evolution from the Early Republic to the present day.
